Residential Electrical Permit	25-000517	Residential Electrical Permit	I have been in communication with Oncor to replace a transformer at the back of my property. Now that this is complete, I am adding a new electrical meter on the back of my property to service our RV, well and barn. This must be done because we have too much demand on our current 200 AMP panel at the house causing our power to the house to "trip" during the cold months. Once the new meter is set, we will reroute some of the electric from the RV, well and barn to the new meter so we no longer have issues with the house.	436 N Little School	Permit Issued		Thomas Lalonde , Thomas LaLonde, Homeowner - 8178088712 - tommylalonde@me.com	07/11/2025	1	\$ 0	0
